Sangamner, Maharashtra

PROFILE SUMMARY

Aspiring Cybersecurity Associate specializing in Vulnerability Assessment and Penetration Testing (VAPT). Experienced in identifying and exploiting flaws within the OWASP Top 10 framework through simulated lab environments. Practical expertise in network reconnaissance, traffic interception, and identifying web application vulnerabilities with a strong emphasis on generating actionable remediation reports.

TECHNICAL SKILLS

- Web Application Security:** Assessed web applications using the OWASP Top 10 methodology.
- Burp Suite:** Intercepted and tested HTTP/S requests using Proxy and Repeater.
- Nmap:** Performed host discovery, port scanning, and service enumeration.
- Wireshark:** Captured and analyzed network traffic for protocol and security analysis.
- Metasploit:** Validated known vulnerabilities on authorized lab machines.
- Postman:** Tested REST APIs and verified authentication mechanisms.
- Gobuster:** Discovered hidden directories and web content through enumeration.
- OSINT & Google Dorking:** Collected public information and identified exposed assets.
- Linux & Git:** Used Kali Linux for security testing and Git for version control.
- VAPT Reporting:** Documented findings with proof of concept, risk ratings, and remediation recommendations.

PROJECTS

Shell Access on Metasploitable 2

- Used Nmap and Metasploit to identify and exploit vulnerable services.
- Gained root shell access and documented findings in a VAPT report.

Network Scanning Assessment

- Performed host discovery using Nmap and analyzed traffic with Wireshark.
- Identified open ports and insecure network services.

OSINT Reconnaissance

- Used OSINT Framework, Google Dorking, and Gobuster to identify exposed assets.
- Documented findings and security recommendations.

Credential Exposure Risk Analysis

- Investigated publicly exposed credentials using OSINT techniques.
- Reported security risks and mitigation recommendations.

ACHIEVEMENTS

- Ranked in the **Top 2%** on TryHackMe.
- Completed **200+** hands-on security labs.

EDUCATION

- Bachelor of Computer Applications (BCA)

CERTIFICATION

- Ethical Hacking Bootcamp | **WsCube Tech**
